

## 1906 Barber Drive #3 Perks

There is a spring a couple houses north that has great fishing, summer and winter. Speaking of winter, we used to keep a hockey/ice skating rink which provided a lot of enjoyment over the years. There is also a lot of ice fishing, as well as snowmobiling which is a popular winter sport here.

Generally, Lake Kegonsa is not a high-use lake like the Madison lakes, and we see a fair number of kayaks and canoes.

Kegonsa State Park is across the lake, and offers a nice beach, and a roped off swimming area. It also has great hiking trails, some of which can be used for cross-country skiing in the winter.

Springer's Restaurant is across the lake too with access by water or road. It has very good food for dinner and a kid-friendly lunch menu. We often came by boat with our grandchildren as they loved having lunch on the patio next to the lake.
